<p>Description: Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has determined that on certain Model Year ("MY") 2018-2019 S-Class (222 platform) and S-Class Coupe/Convertible (217 platform) vehicles equipped with 4.0L 8-cylinder gasoline-engines (M176), the material of two engine oil plugs might not withstand the high engine loads during driving. The material of the closure plugs might fail to contain high engine oil pressures, which can occur especially during dynamic driving and could result in engine oil leaking from the plugs. The resulting oil leak on the road could create a potential road hazard increasing the risk of a crash for other road users. If the engine oil level were to fall below a certain limit, the driver would be made aware of this issue by a red warning message in the instrument cluster. If the warning message were to be ignored by the driver, the engine could run without the required oil, damaging the engine and result in a vehicle stall. As a precautionary measure, Mercedes-Benz AG, via its Mercedes-Benz service partners, will rework the engine oil plugs on the affected vehicles.</p> <p>The material of the closure plugs might fail to contain high engine oil pressures, which can occur especially during dynamic driving and could result in engine oil leaking from the plugs. Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Lease

When someone leases a car from a dealer, the dealer actually sells the vehicle to a leasing company. The leasing company then collects payments for the vehicle from the new owner for 24, 36, 48 or more months. A leasing company can be an independent car dealer or a car manufacturer.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

CARFAX DEPENDS ON ITS SOURCES FOR THE ACCURACY AND RELIABILITY OF ITS INFORMATION. THEREFORE, NO RESPONSIBILITY IS ASSUMED BY CARFAX OR ITS AGENTS FOR ERRORS OR OMISSIONS IN THIS REPORT.
