Description: Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has determined that on certain Model Year ("MY") 2016-2021 CLA-Class, GLA-Class, GLE-Class, GLS-Class, SLC-Class, A-Class, GT-Class, C-Class, E-Class, S-Class, CLS-Class, SL-Class, B-Class, GLB-Class, GLC-Class, and G-Class vehicles (117, 118, 156, 166, 167, 172, 177, 190, 205, 207, 213, 217, 218, 222, 231, 238, 242, 247, 253, 257, 290, 292, and 463 platform), the software design of the communication module may fail to communicate the correct vehicle's location for the emergency call system ("eCall") in the event of a crash. If there is a drop of the power supply to the communications module during a crash, the automatic eCall system may register the location of the vehicle's last ignition cycle, rather than its location at the time the eCall system is activated. Emergency responders may be dispatched to an inaccurate vehicle location, increasing the risk of injury following a crash. Nevertheless, the other functions of the automatic and manual emergency call function are not affected by this issue. Either an authorized Mercedes-Benz dealer or an over-the-air ("OTA") update will update the software of the communication module for the automatic emergency call system on the affected vehicles.

If there is a drop of the power supply to the communications module during a crash, the automatic eCall system may register the location of the vehicle's last ignition cycle, rather than its location at the time the eCall system is activated. Emergency responders may be dispatched to an inaccurate vehicle location, increasing the risk of injury following a crash. Nevertheless, the other functions of the automatic and manual emergency call function are not affected by this issue.

Remedy: Either an authorized Mercedes-Benz dealer or an over-the-air ("OTA") update will update the software of the communication module for the automatic emergency call system on the affected vehicles.

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Taxi

Vehicle was registered as a taxi or "for hire" vehicle.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
